

## Microsoft Cloud Services

# All your licensing in one place, fully under your control

### Introduction

In today's busy work environment, tools that enable collaboration, drive efficiency and allow businesses to seamlessly interact are essential.

Microsoft products are at the forefront of almost every business, from Office 365 to critical business applications hosted in Azure. Sure can help you implement and manage these important applications.

Microsoft 365 licensing through Sure's online portal enables you to minimise your 3rd party relationships, maintain strict control of your software spend, and speak to Sure's expert Service Desk when you need help.

### Access the full Microsoft Portfolio

- Office 365 Enterprise
- Office 365 Business
- Azure
- Windows 10
- Collaboration And Communication
- Exchange Online
- Dynamics 365 Applications
- Project Management
- Security
- Identity
- Dynamics 365 EE Plans
- Management

### Self-serve access to Microsoft Cloud

Using our online portal enables you to manage your usage and to pay for your services on a monthly basis, where you pay for what you need over a fixed term. You can monitor your spending at any time and easily access our service desk if needed. Adding or changing users is simple and ensuring you are correctly licensed for what you are using is easy.

## Why choose Sure?

### Self-Serve

Our simple and straight forward to use online portal allows you to access and fully control your licenses and buy or manage services in no time at all.

### Spread the cost

Pay month-to-month instead of having to pay the whole year up front and no purchase volume requirement.

### Help when you need it

We can help you to identify the correct license mix to suit your needs. Our professional services team are here when you need us.

### Flexible and Scalable

Improve agility of IT to respond to business needs - no upfront investment

## Adopting cloud based communications and collaboration

No longer is creativity limited to huddle rooms and conference tables. Work together anywhere, on any device, with the same set of tools and a consistent look and feel. Whether you're in the office, at home or on the road. With collaboration, conferencing and messaging all rolled into a single, unified service, employees spend less time trying to connect and more time engaged in productive communications.

### Unsure where to start?

With so many license plans and options available, it can be a minefield to decide what is right for your needs. We can help you choose the most suitable Microsoft 365 package, so you get the right business outcome at the best possible value. Additionally if you are unclear on your requirements we have a range of consultancy services for discovery, cloud assessment and migrations to help you define your needs and design a practical implementation plan.

### Related services

In addition to our Microsoft Cloud Services we have a wide range of products to help you drive productivity in your business, including; high speed connectivity, vCloud, managed security, managed networks, online backup, disaster recovery, and transformation services. Additionally, our advisory and design consultants have expertise in designing and optimising networks. Ask your account manager how we can help modernise your infrastructure.
